

Transept Stained-Glass Window Project Gift

Through the generosity of a couple of parishioners, we have been able to retrofit and install the six smaller stained-glass windows that have been in storage since the Church was built in 2003. In addition, two new ones were designed and installed for the two small windows above the exit doors.

Remaining in storage are the two large windows shown below needing to be retrofitted, like the others, to fit and match the gothic arched windows in the Church.

Having seen the impressive addition the smaller windows have made to our beautiful Sanctuary, parishioners have expressed interest in moving forward with the large windows. In support of their interest, \$36,868 in donations have been made toward a project cost of \$180,000.

Saint Mark is blessed with generous parishioners who have supported the Parish in our many past accomplishments. Parishioners are asked to show their continued support through a donation to the completion of the Transept Stained Glass Window Project. Donations of \$250 or more will be recognized with a leaf on the Parish Giving Tree in the Church Narthex with the donor's name(s).
